

Sliding Engraved Signs

Product Data Bulletin

Description:

A solid color acrylic core is manufactured with a color surface layer. Laser engraving selectively removes portions of the color layer to expose the solid color core (See “Engraved Signs” Product Bulletin for details). Signs are mounted in a bracket which allows sliding to indicate room status.

Specifications:

SIGN CONSTRUCTION: 1/16” Solid Color Core with Surface Color co-extrusion layer. Laser engraving removes the surface color to reveal the solid color core.

Sign bracket has printed layer for “VACANT” / “OCCUPIED”

MOUNTING: Sign slides in bracket.

Bracket mounting via screw holes (not shown) and 3M 467 MP Permanent Acrylic Adhesive with easy to remove backing liner

OPTIONS: Custom printing to replace “VACANT” / “OCCUPIED” is available.

Please enquire for specialty colors and finishes.
