COMMON HAZARDS AT CONSTRUCTION SITES

Nearly 8 million people work at approximately 919,000 construction sites across the nation on any given day. The fatal injury rate for the construction industry is higher than the national average for all industries.

These are some of the commonly cited hazards found at construction sites across the United States.

Falls

Falls consistently account for the greatest number of fatalities in the construction industry. Employees who work six or more feet above a lower level must use fall protection.

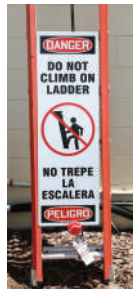

Signage – Page 8

Stairways & Ladders

Working on and around stairways and ladders can be hazardous. Stairways and ladders are major sources of injuries and fatalities among construction workers.

Ladder Shield™ – Page 23

Scaffolding

Scaffolding hazards continue to rank high on the list of the most frequently cited standard violations in the construction industry. Protecting workers from scaffold-related accidents could prevent some of the 4,500 injuries and over 60 deaths every year.

Scaffold Tag Inspection Kit – Page 5

Electrical

Almost all construction employers must consider the hazards associated with electricity (i.e., electric shock, electrocution, fires, and explosions). OSHA requires that employees not work near any part of an electrical power circuit unless protected.

Standard Lockout Kit – Page 23

Trenching & Excavation

Two workers are killed every month in trench collapses. Employers must comply with the trenching and excavation requirements of 29 CFR 1926.651 and 1926.652 or comparable OSHA-approved state plan regulations.

Signage – Page 8

Motor Vehicle Safety/ Highway Work Zones

The majority of fatalities that occur in road construction work zones in the United States involve a worker being struck by a piece of construction equipment or other vehicle.

Tilt Adjust™ Spring-Less Sign Stand and Roll-up Signs – Page 20

ZRS371

Safety Documents Job Site Boxes

Have important paperwork readily available and protected on the job site.

- Durable steel box has galvanized coating and exterior powder-coat finish to prevent rust
- Stainless steel, sloping hinged lid with lockable hasp and foam gasket
- 13 1/2" x 13 1/2" x 4 1/2" box holds up to 3" binder
- Designed for outdoor exposure
- Box can be set out on a counter, table, or installed on wall with rear mounting holes
- Kit includes 2 1/2" SDS binder

ZRS407

Basket-Style Aluminum Safety Data Sheet (SDS) Centers

- 20"H x 15"W sturdy aluminum backboard
- PVC-coated steel wire basket holds a standard three-ring 1 1/2" binder (included)
- Four corner mounting holes
- Protected by Sign Muscle® Liquid Laminate

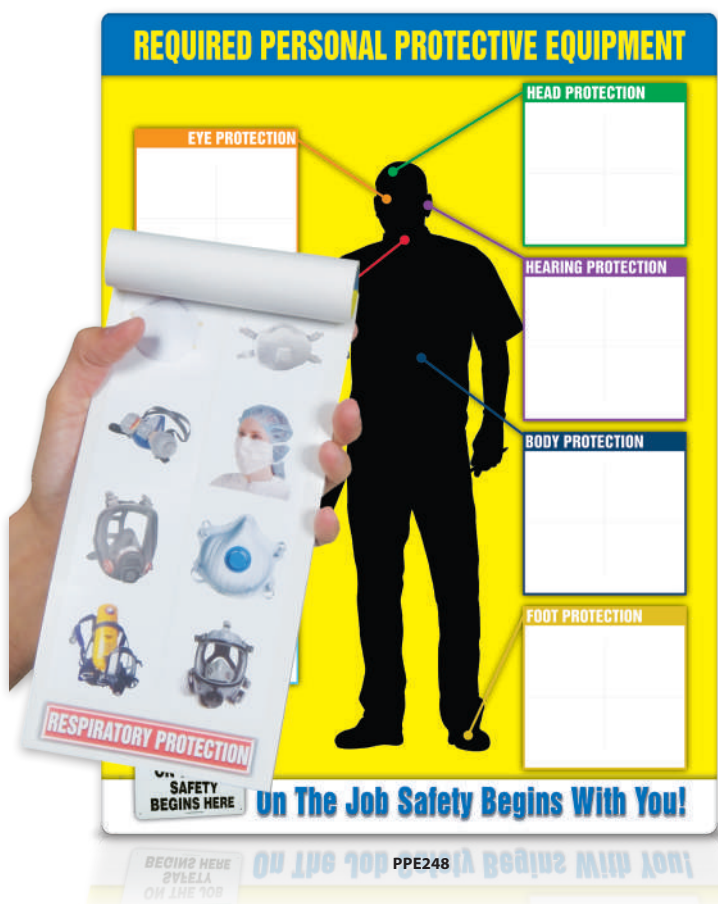

Potable Water Cooler Tape

- Clearly mark potable water and discourage dipping
- Visible green tape with identifying message
- Leaves no sticky residue when removed
- 2"H x 55-yds. long
- Roll seals approximately 38 ten-gallon water coolers

KWC100

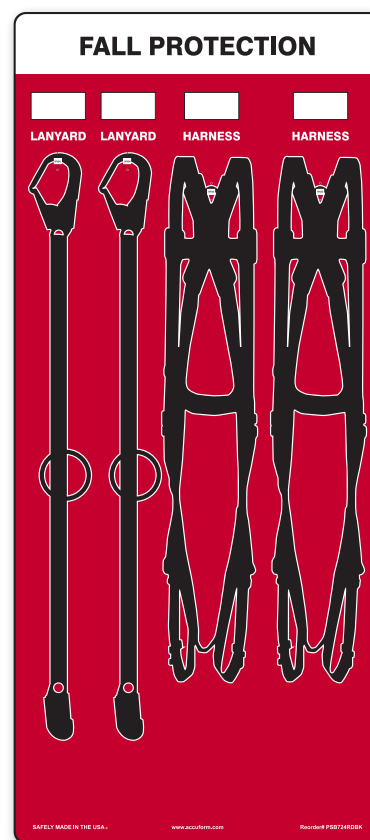

PPE-ID™ Chart & Label Booklet Kit

Show specific PPE requirements for designated hazard areas.

- Ideal for posting at entrances, doorways, time clocks, lockers, and more
- 24" x 18" PPE-ID™ Chart is printed on sturdy plastic with UV protective coating
- Template with blank spaces to be filled in by placing PPE product labels from the Label Booklet. (sold as part of a kit or separately)

PSB724RDBK

Fall Protection Shadow Boards

Fall Protection Shadow Boards, perfect for storing and organizing harnesses and lanyards* at the job site trailer.

- Made of Ultra Aluma-Lite™ and protected by Sign Muscle®
- Includes zinc-plated mounting hardware
- Available in horizontal (30" x 68") and vertical (68" x 30", shown) formats
- Features 1/2" rounded corners and 3/8" mounting holes

*Fall protection not included

Contact us today for additional styles and customization.

Customize It!

Custom PPE-ID™ Charts

Remind employees, contractors, and visitors of protective equipment requirements.

Full-color and fully customizable PPE ID™ Charts identify required PPE for any job site. Place Custom PPE-ID™ Charts at entrances, doorways, time clocks, and locker or changing areas. Available each in Plastic, Aluma-Lite™ or Accu-Shield™.

- Reinforce training programs by showing full-color images of required PPE
- Help non-English speaking workers quickly recognize required protective equipment
- Reinforce already-posted warning messages
- Strengthen awareness of required PPE
- Include specific product names and part numbers for easy reference

Contact us for details.

Job Site Signs

Durable, light, industrial short-term signage. Contractor Preferred Signs offer great performance at a cost-effective price.

Adhesive (VS) is a flexible, pressure-sensitive adhesive vinyl material for indoor and short-term outdoor applications. Will conform to smooth curved surfaces.

Plastic (VP) offers light abrasion and chemical resistance that will not rust, chip, or crack. Conforms to curved surfaces. Finished with four mounting holes. Protected with Sign Muscle®.

Aluminum (VA) stands up indoors and out and is thin enough to conform to curved surfaces. Finished with four mounting holes. Protected with Sign Muscle®.

To order, add material code in parenthesis above after part number.

DIGI-DAY®

Electronic Scoreboards

The Digi-Day® that dominated the electronic scoreboard market for years has been upgraded!

⚠ **WARNING:** Cancer and Reproductive Harm – www.P65Warnings.ca.gov

New features include a slimmer board style (1"D), indoor or outdoor placement** including wet or damp conditions, and the best part – you can now control up to 5 digital displays with one remote!

- Count days without an accident in green, or in the event of an accident, set the display to red until you meet your new safe days goal
- Track the 7-day week, or only your company's work days
- Internal clock advances counter by one automatically, every 24 hours; set to change any time of day
- Display days only or flash between days, date, and clock
- Tamper-proof operation with easy to use handheld remote control
- In a power failure, all information is stored*

Specifications:

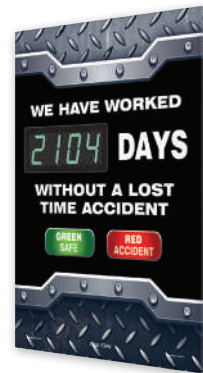

- IP65 tested for dust and water resistance
- 28" x 20" x 1" aluminum construction
- Built-in hidden rear mounting brackets
- Four-digit, bright LED display with 2 1/2"H numbers
- Operates on 110/120 VAC with 8-ft. power cord and AC adapter
- Protected by Sign Muscle®

*Indicators notify when a hold or power failure has occurred.

** Power receptacles exposed to wet environments should be plugged into a GFI outlet with waterproof protective receptacle cover. Mount these scoreboards under protective overhang or covered area.

Heat Stress Temperature Signs

Heat Stress Temperature Signs

An innovative way to alert employees of dangerous environment temperatures and remind them to avoid heat stress.

- Display temperature reading range is: -4° to 158°F / -20° to 70°C
- Can be set to display Celsius or Fahrenheit
- Bright LED display with 2 1/2"H numbers
- Available in two sizes: 28" x 20" x 1" and 18" x 12" x 1", both with aluminum construction
- Operates on 110/120 VAC with 8-ft. power cord and AC adapter
- Lightweight, sturdy aluminum construction features a low profile, 1-inch deep visual edge design
- Built-in hidden rear mounting brackets
- Protected by Sign Muscle™ Liquid Laminate

**Additional stock messages available.
Heat Stress Signs may also be customized.**

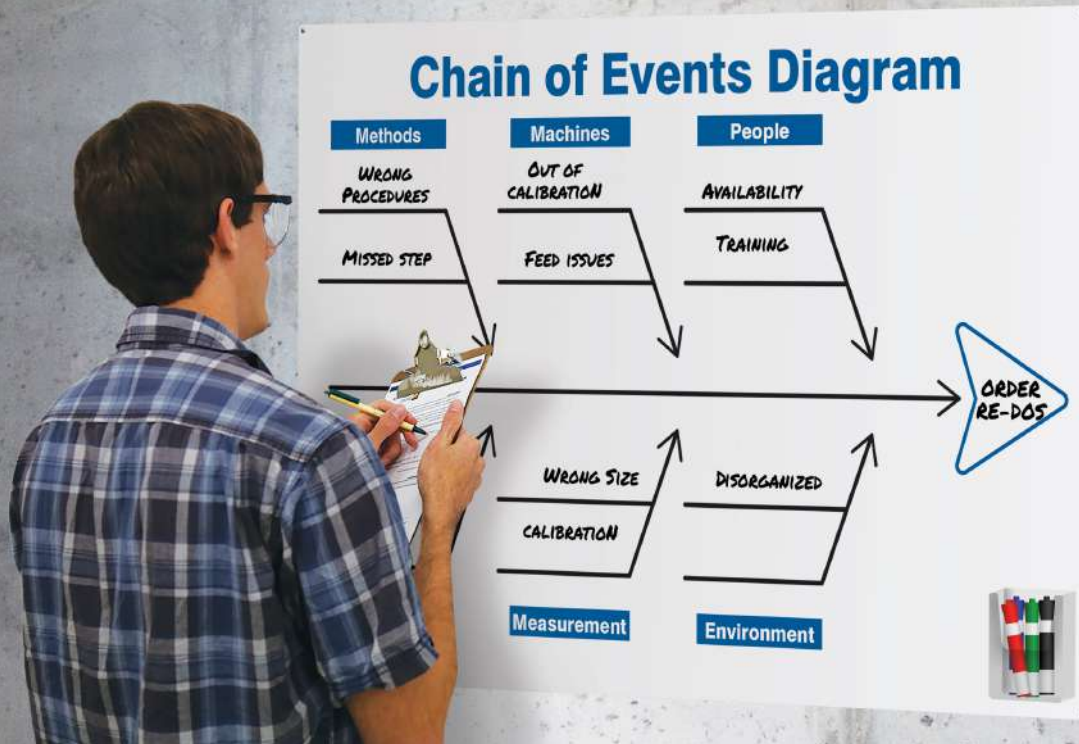

Digital Display Temperature Indicators

When the temperature reaches user specified setting, the display changes to red.

Digital display shows current safe temperature in green.

Chain of Events KPI-Boards

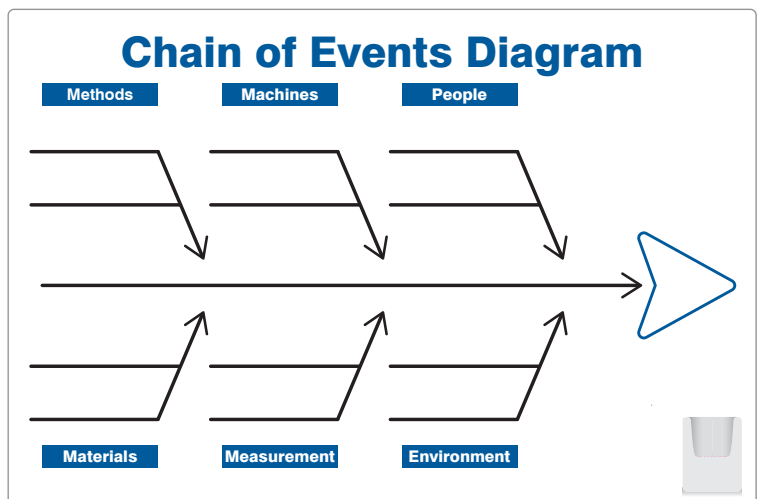

Chain of Events KPI-Boards focus on understanding the sequence of events leading to particular outcomes.

Key Features

- Dry erase boards available in 2 different designs.
- Board dimensions: 32"H x 48"W made of Ultra Aluma-Lite™.
- Includes 1 dry erase marker and eraser holder: 4 3/4"H x 3 5/8"W x 2"D.
- Use with dry erase markers to visibly provide metrics and indicate goals (dry erase marker set sold separately, pg 8).

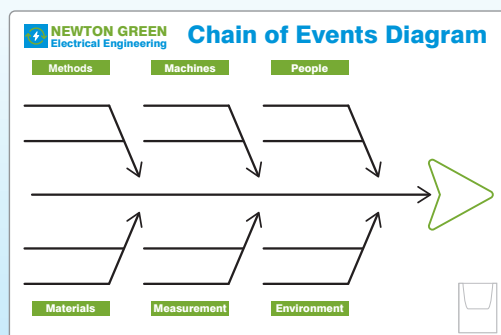

Benefits

- Identifies potential hazards in a system or process.
- Helps improve risk management by providing a visual representation of factors contributing to a particular outcome.
- Provides a clear picture allowing for better decision making.
- Improves safety by identifying factors that could lead to hazardous conditions.

Engage, Motivate, And...

SAVE LIVES

Customize Your Job Site Safety Campaign

Not all protective equipment is worn, and signage often serves as the final layer of defense. It makes job site safety messaging essential. This underscores the importance of job site safety messaging that engages, motivates and protects. We approach your project with the highest level of seriousness, knowing that lives are at risk if safety messages are disregarded or fade into the background. With AccuformNMC, your tailored job site safety campaign is infused with the creativity it deserves, ensuring your team returns home to what matters most to them.
