

Sliding Engraved Signs

Product Data Bulletin

Description:

A solid color acrylic core is manufactured with a color surface layer. Rotary engraving selectively removes portions of the color layer to expose the solid color core (See “Engraved Signs” Product Bulletins for details). The engraved sign plate slides left and right in the bracket to expose a room status indicator on the bracket.

Specifications:

SIGN CONSTRUCTION:

1/16" Solid Color Acrylic Core with surface color layer.
Rotary engraving removes the surface color to reveal the solid color core

Sign bracket has printed layer for VACANT / OCCUPIED

MOUNTING:

Sign slides freely in bracket.
